NEW PRODUCT 02 **Trust Score**

Know which jobs to trust.

Trust 71 · Good Why this score

- This listing is in the source feed
- The source feed is a standard partner feed
- The employer is named
- Pay is listed and looks plausible
- The posted date was filled in because the feed did not send one

! Caution: check before applying

High	Good	Caution	Low
80+	60 to 79	40 to 59	under 40

WHAT IT CHECKS

- **Still live**
  In today's source feed
- **Employer identity signals**
  Name, matching domain. A signal, not proof.
- **Plausible pay**
  Unusually high pay lowers the score
- **Duplicates and reposts**
  Copies, mass posting, old listings
- **Risky wording**
  Fees, gift cards, crypto, private chat apps

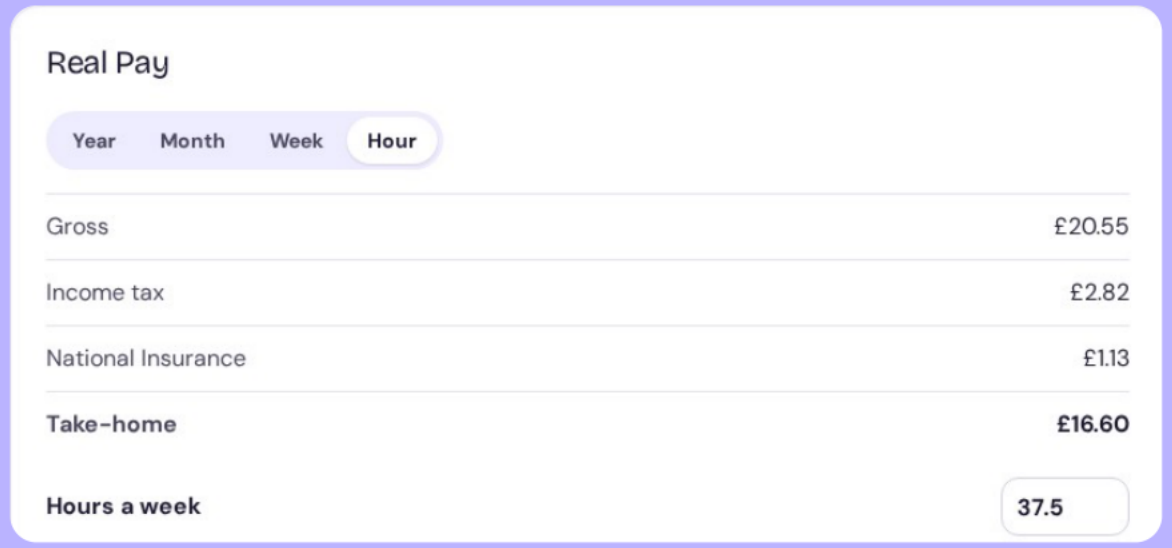

Shown on job cards and job pages.

jobvibe

1 Search › 2 Trust it › 3 Take-home

NEW PRODUCT 03 **Real Pay**

See what you'll really take home.

Live job page. An estimate, not tax advice.

WHEN PAY IS LISTED

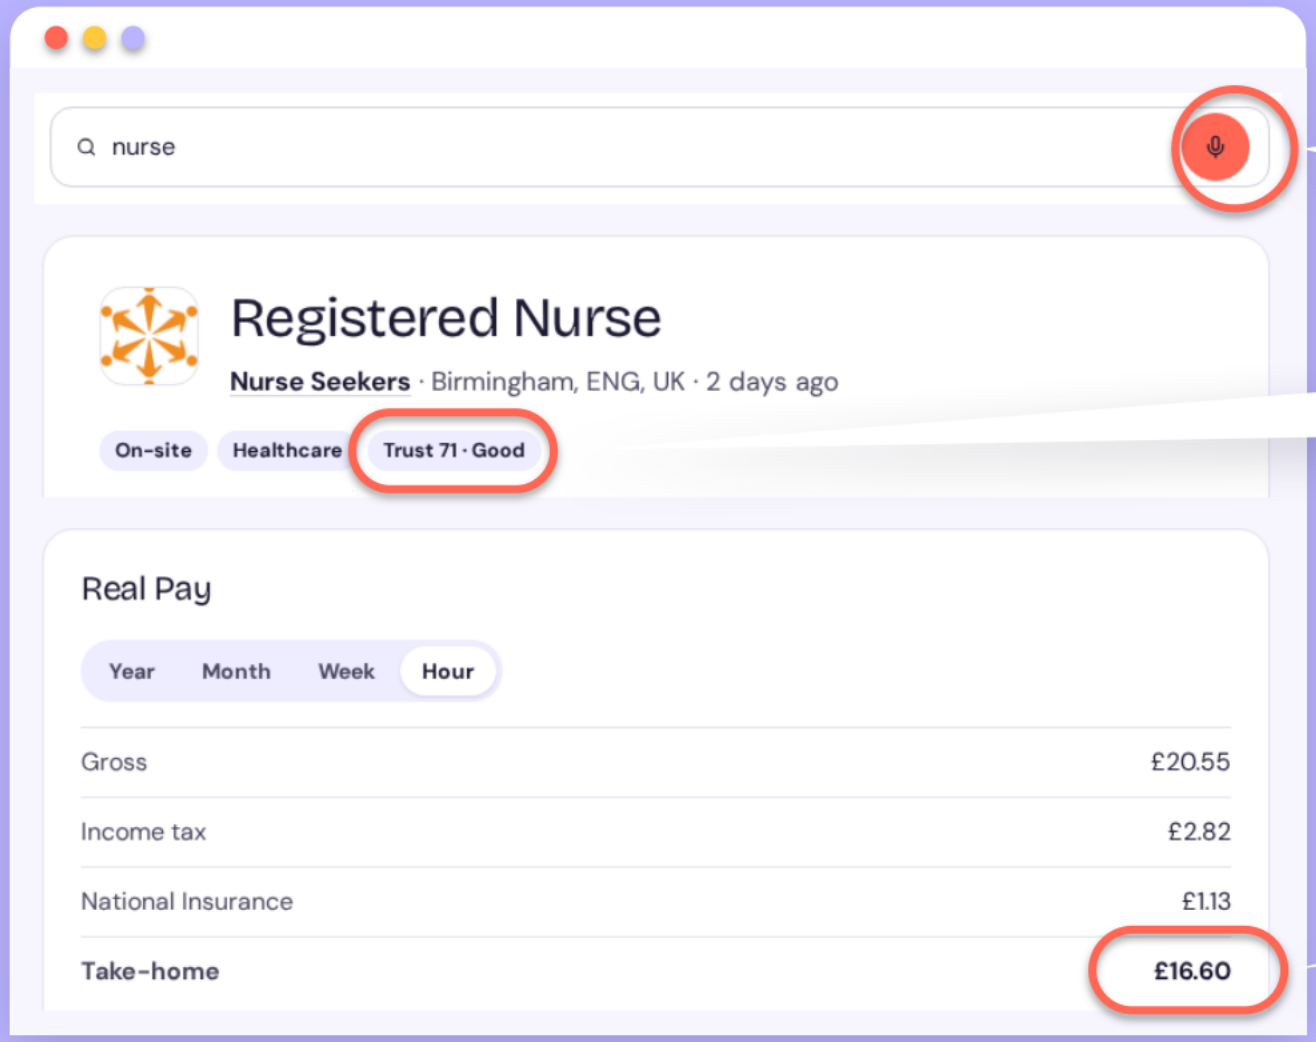

- **Gross to take home**
  From the pay on the listing
- **UK 2026/27 and US 2026**
  Tax and National Insurance or federal, state and FICA
- **Your hours**
  Change hours a week, see it update
- **Any view**
  Per year, month, week or hour

Pay not listed? We say so.

WHY IT MATTERS TO PARTNERS

Clean traffic. Nothing hidden.

In-house and explainable

Built in-house, with explainable reason codes.

What you can inspect

Click-level records and the reason code behind every flag.

Evidence for disputes

Records both sides can check when a number is questioned.

People first

No jobseeker blocked. Flagged clicks still reach the job.

Sample report for every publisher. See exactly what we check, and why, for better understanding.
